Using The Menu Planner

We have four (4) weeks worth of menus. After the 4th week, we start the cycle over again. We have done this to keep the daily specials fresh and varied. We typically change the menus twice a year.

There are four columns (week #1, week #2, week #3, and week #4). Under each column are the seven days of that week. Under each day, the three main daily specials are listed as well as that day's soup selections. Please note that we also serve chicken lemon rice soup and chili (an additional charge) everyday.

The chart is real easy to follow. If the restaurant is in week #1's menu, than on Monday we will have Sweet & Sour Pork Chops, Beef Tips & Noodles, and 1/2 Barbecued Chicken. On Tuesday, we will served Roast Chicken and Dressing, Yankee Pot Roast, and Turkey Pot Pie with Yams. As Week # 1 Ends, move to Week # 2. As week # 2 Ends, move to Week # 3. As Week # 3 Ends, move to Week # 4. As Week # 4 Ends, start the Cycle over with Week #1.

On the Holidays, all bets are off. A different menu will probably be put in place of whatever is on the menu planner for that day. Be assured, the menu planner will continue the following day as scheduled.

Each of our locations, Schererville and Highland, are on DIFFERENT weeks. For instance, if the Schererville location is on the Week #1 menu, then the Highland location might be on the Week #4 menu. We do this just in case you do not like the choices at one of the locations, you might like the choices at the other. It also allows our Guest's to get their Favorite foods twice as often (as long as they are willing to make the little bit of an extra drive).

How to tell which week the restaurant in currently using is easy.

- Left Click on the MENU Tab.
- Pick the location and left click it.
- Left click the desired meal period's menu.
- In the lower right hand corner of the menu, it will have the Week # that is presently being used (RTC 1 Wk # 1 for instance).
